SUMMARY

Highly motivated Junior Developer currently in the active learning and project phase, with a strong focus on Backend development and practical AI application. Proficient in Python for core application logic and possess foundational knowledge in Frontend technologies to support full-stack integration. Interested in transitioning hands-on project experience into a professional development role.

WORK EXPERIENCE

ML Engineer-Phobosq

April 2025 - present

Developed scalable, end-to-end machine learning solutions aligned with business objectives. Built robust, low-latency RESTful APIs for model serving and seamless application integration.

Infosys Springboard Virtual Internship

October 2025 - December 2025

I developed a full-stack hybrid banking chatbot. I integrated local machine learning models with the Google Gemini API to automate customer support and optimize operational costs.

PROGRAMMING LANGUAGES

C and C++ — Python — HTML and CSS

PROJECTS

ML model to predict the Cancer disease

[Link to Demo](#)

Smart data assistant with API (Gemini and neon DB)

Legal contract assistant with API (Gemini)

[Link to Demo](#)

ML model for Heart disease

[Link to Demo](#)

EDUCATION

2024 - Present	BE.CSE(AI ML)- KPR Institute of Engineering and Technology (CGPA: 8.51/10)
2024	Class 12th StateBoard- VIB Matrix Hr Secondary School (92.5 percent)
2022	Class 10th StateBoard- R.N.Oxford Matriculation School (95 percent)

CERTIFICATES

Python

[Credential](#)

C programming

C++ programming

Oracle Cloud AI Foundations Associate

[Credential](#)

SKILLS

Designing	Posters and web designing with Figma
Data Handling	knowledge about DBMS
Public Relations	Exploring new things and learning
Teamwork	Participated in Hackathons and worked as team
Critical Thinking	Solving new problems in platforms like hackerRank,skillrack
